

Blinder Duo

Strengthens your plants

Blinder Duo is a concentrated suspension formulated with a high composition of Calcium and micronized Silicon of high purity and free of salts, which favors the application of high doses without causing adverse reactions or phytotoxicities in the plant organs. Although it is compatible with most agrochemicals, it is recommended to carry out compatibility tests by reaction of active ingredients or water quality.

Guaranteed Analysis

Calcium (Ca) <i>(Derived from Calcium Silicate)</i>	16%
Also contains nonplant food ingredient	
Silicon Dioxide (SiO ₂) <i>(Derived from Calcium Silicate)</i>	23%
