

KP500⁰⁻²²⁻³¹

Improve productivity of your crops

KP500 0-22-31 is a fertilizer with a high level of Phosphorus and Potassium enriched with seaweed extract of (*Ascophyllum nodosum*) allowing rapid absorption and assimilation for the plant. Its application is focused on supporting the development and formation of the fruits, tubers and grains. It also contributes to obtaining better quality crops increasing sugar levels, color and weight. KP500 0-22-31 additionally contributes to reducing effects generated by environmental stress and increasing resistance to low levels of temperature. In the same way it improves the physiological function process of the plant, generating a good development and filling-stage of the fruit, as well as improving its quality.

Guaranteed Analysis

Available Phosphate (P ₂ O ₅)	22%
Soluble Potash (K ₂ O)	31%

Packaging Presentation

1 Quart (946 ml) - 1 Gallon (3.785 Lts)
2.5 Gals (9.5 Lts) - 5 Gals (18.93 Lts)

Application

CROP TYPE	Citrus Fruit trees	Vines Olive trees	Peppers Tomatoes	Beetroots Cotton	Strawberries	Plane Trees	Other Crops
FOLIAR SPRAY	25 - 33.5 oz/100 gal						20.3 - 33.5 oz/100 gal
SOIL DRENCH	1.96 - 2.6 oz/1000 ft ² 84.5 - 112 oz/Acre						
TIMING AND FREQUENCY		2 to 3 treatments every 15-20 in the growth spring	Apply treatments every 10-15 days when cultivation reaches 1/3 of its development		2 to 3 treatments When fruits start to mature	2 to 3 treatments When fruits begin to thicken
